

The worlds fastest and smartest laminator

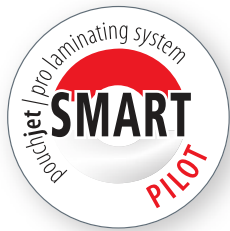

automatic film identification

automatic temperature system

automatic speed system

pouchjet I® pro II

Automatic laminating - simple handling

Fast heating time - less than 1 minute

Most rapid laminating in the world - 2,200 mm/min

Simple insertion of documents

Laminating films welded on the long side

The **pouchjet | pro II** identifies each pouch automatically and detects the best speed and temperature to which the SmartPouch should be laminated.

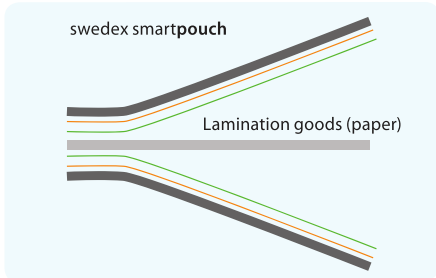

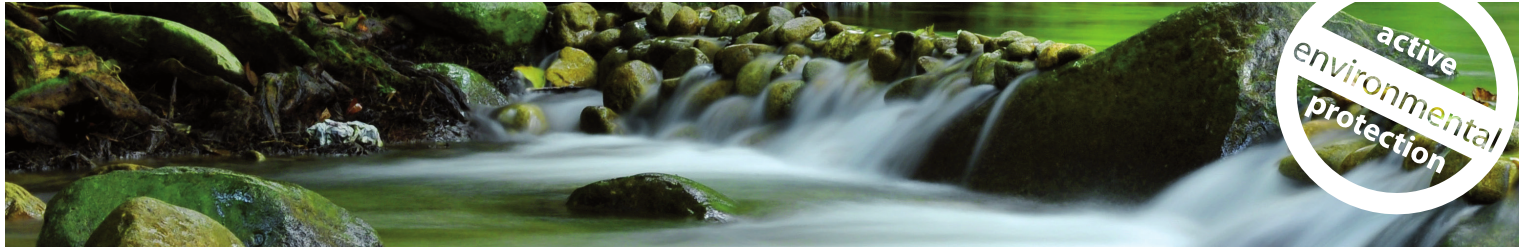

Common Uses

- Signage • Menus • Artwork • ID Cards • Name Tags
- Stock lists • Newspaper clippings • Presentations
- Photos • Certificates • Price Lists • Brochures
- Instructions • Table sets • Invitations • Vouchers
- Luggage Tags • Goods Labels • Reports • Etc...

The **pouchjet | pro II** laminates fast with record speed. **It is ready to start in aprox. 55 seconds and then laminates ten A4 sheets in less than 1 minute.**

The **pouchjet | pro II** is equipped with an extremely high - performance and reliable 8-roller system. 4 x Transport rollers and 4 x quartz-heated rollers that guarantee fast laminating with outstanding quality.

- 1. Film (PP)
 - 2. Compound layer EVA high
 - 3. Compound layer EVA low
- + Environmentally-friendly base material
 - + Solvent-free compound layer
 - = Optimal connection of the film with the lamination goods

1. Base material without phtalates (plasticizers)

- swedex smartpouches do not emit any **phtalates** while laminating .
- **Room air not contaminated with storage** (no negative effects on your body via the respiratory tract) .

2. Base material without heavy metals (e.g. mercury)

- swedex smartpouches give off **no heavy metals** in case of contact, such as health endangering mercury, since none are present .

3. Base material of high-quality polypropylene

- swedex smartpouches consist of **recyclable polypropylene** .
- swedex smartpouches **protect against ultraviolet radiation** .

4. Adhesive layers from EVA

- swedex smartpouches do not emit any **solvents** while laminating .
- **no negative effects on the respiratory tract** through solvents with the storage of swedex smartpouches .

Laminating speed
(80g, A4 copying paper)

Grade

turbo	2000 mm net /approx. 10 items*/min
medi	1 620 mm net /approx. 8 items*/min
maxi	900 mm net /approx. 4 items*/min

*The item numbers refer to the utilization of swedex DIN A4 speedpouches calculated for a continuous laminating procedure.

pouchjet I® pro II

Pre-punched

Easy Organize

Pre-Punched over-sized pouches make the ideal filing solution for your documents.

Easy Write

Matt laminating pouches that can be written on.

Easy Post

Self-adhesive pouches that are semi-adhesive. (can be stuck to a surface and then easily removed).
